

Introducing Linda Landon

Linda Landon, PCC (MCC pending), is an International Coach Federation certified business coach, trained recovery coach, Deep Coaching practitioner, experienced seminar leader, and author. She mentors professionals and executives in recovery to deeply transform themselves and their organizations. Linda uses powerful tools for self-awareness, including The Enneagram, The Work of Byron Katie and other mindfulness methods to help her clients evoke their deep intelligence and achieve results beyond what they know to be possible. In 2009 she published her first book, *The Power of Pause: simple meditations for complicated lives*.

Typical clients include executives being promoted into positions of leadership, CEOs who feel stuck in the middle of a major life transition and need support to create a new path for themselves, or an entrepreneur who has become totally obsessed with work and lost a sense of balance or life purpose. Executives in recovery from substance abuse or process addiction choose Linda as their coach because she understands the unique stressors of maintaining recovery while running a business.

With more than 25 years experience in coaching, consulting, marketing and running several businesses, she is president of Linda Landon & Associates, a national coaching and training company based in Los Angeles. A native of New York, Linda received her BA from Trinity College, and then went on to study a wide range of healing modalities and mindfulness techniques that deeply inform her work. She also graduated from the Deep Coaching Institute, New Agreements Coach Training and Leadership Institute, and Crossroads Recovery Coaching. Further education includes a mentorship for four years with don Miguel Ruiz, author of *The Four Agreements*, and over five years' study of the Diamond Logos tradition. Currently Vice-President of WAAT (Women's Association for Addiction Treatment), and mentor for the Deep Coaching Institute, Linda leads recover coaching groups at Professionals Treatment at Promises and Clearview Treatment Center.

Linda's capacity for intuitive knowing, clear thinking and deep empathy allows her to see through familiar patterns and conditioned thinking that obscures one's connection to essence. She helps clients recognize and shift core coping strategies they've used to manage stress, so they can tap into their deeper knowing, expand their sense of self, and choose new possibilities. As a result they become more conscious and accountable, perform with more creativity, and achieve unimaginable results both professionally and personally.
